**Electricity and Voltage**

Electricity is quite a luxury for some areas in Indonesia due to the dissimilar distribution especially in the rural areas and the price is not that much cheaper compared to Europe. However, the thing that we concern the most is the carbon emission produced by the power plant as the more we use the electricity the more carbon emission produced. Therefore, we strongly suggest you to use all electronic devices wisely including switching off the airconditioning when you are not in the room and plug out your device chargers from the socket after using it.

**Time Zone**

We have made the decision to employ locals to stimulate the employment of the village. We have a villa manager who is responsible for the daily operations of the three unit villas. The staff of the villa will do their utmost to make your stay as pleasant as possible. It is all up to you if you want to show your appreciation to them. They will appreciate if you thank them with a tip for the services rendered when you leave.

We have a washing and dry machine for our own bedlinen, cushions and towels. You are welcome to ask our staff shall you wish to wash your clothes. It is at Rp. 10.000 + 15% government tax and service or 70 Euro cents + 15%.

Tour operator will advise to go after middle of the night so then you can see both: the blue fire and the sunrise.

The view of sulphur miners who climb and go down to the crater is also amazing. A man puts about 10 kg of yellowish stone in to his basket, before he descends the mountain slope to sell his load, carrying the same basket, going in the same direction, digging the same mineral. It is the natural picture that can be seen every day.

The weather in the night is pretty chill, we advise you to bring jacket/sweater and of course proper shoes. You will need to climb about 3km. Please ask our staff to prepare your breakfast for take-away to Ijen. Make sure the battery in your camera is full.

Myth has it that Mount Bromo is significant to the Tengger people who believe that the site is where their brave prince sacrificed his life for his family. To appease the Gods, the people will offer food and money by throwing it into the crater of the volcano once a year during annual Kasada (or Kasodo) festival.

The best time to go is in June, July and August where is less rain but more tourists. August is the month for the Kesada (Kesodo festival) for the Tengger people if you are interested. However, Indonesia being a fairly mind weather of just rain and shine, anytime is a good time to go to Mount Bromo. Try to avoid weekends if you do not want the crowd.
Dos and Don'ts

Entering a temple
DO wear some Sarong or long clothes when entering a temple – The Balinese are very serious about their spirituality, so please be respectful.
DON'T enter a temple menstruating – also if you have an open wound you shouldn’t enter.

Shopping
DO haggle in markets and street shops - Humor and a smile can get you a long way, that goes for bargaining too.
DON'T haggle too hard or for the fun of it - Be polite. 5000 rupiah probably won’t make much of a difference to you, but it might do to the seller.

Mind the head
DO wear a helmet when driving a scooter – Both for protection and to avoid getting stopped by the police. Insider tip: Wearing an “udeng” (The traditional Balinese headwear) exempt you from wearing a helmet
DON'T touch people’s heads – That goes for kids too, even if they are cute. The head is considered the most sacred part of the human body.

Drinking water
DO drink bottled water - Bali is hot all year around and you don’t want to dehydrate.
DON'T drink tap water - It does not taste good and will almost certainly give you stomach problems.

When giving and receiving
DO use both hands when giving or receiving - It is a compliment to use both hands when you give or receive things like money or a business card.
DON'T hand over something with your left hand – It is considered impolite. Using both hands is still ok.

When driving
DO honk the horn shortly when overtaking - It is a common way to let other people know you are passing.
DON'T hold the horn down – Being aggressive in the traffic is frowned upon everywhere, even more so in Bali.

Getting attention
DO wave with your palm facing down - When asking someone to come by, stretch your hand out, palm down and move your fingers toward yourself.
DON'T point with your index finger - That is considered offensive. Use the entire hand if you want to point out something.

When invited to dinner
DO make room for a second serving – you will most likely be asked for one and it will be impolite to reject.
DON'T empty your plate – Leave a little food as an offering to the gods and to let the host know you had enough to eat.
Partying

DO enjoy an ice cold Bintang - Balis’ no. 1 beer and it comes in large bottles as well!

DON'T do drugs! - Indonesian drug laws are extremely strict.

Watch your feet

DO take of your shoes when entering - When entering a home or temple take of you shoes. Helpful tip: Whenever you see a row of flip flops outside a building, you should take of yours too before entering.

DON'T touch or point at someone with your feet – It is considered very offensive.
